

RABOAT

Raboat is half rabbit and half goat. It is a very nice animal because it is very little and cute such as rabbits or cats or little dogs. People have got raboats in the North Amerika and in the Czech Republic, for example in Olomouc. Raboat costs 3,000,000 CZK. Raboat can run up to 200 km/h and can jump to a height of up to 30 meters. It has either blue or green eyes and a pink snout, just like a cat. All you need for breeding is a cage, food and drink. Raboat loves to cuddle very much. Raboat should be the only pet because it does not like other pets.
